## Pam's summary of overall Implementation 'Road-map'

- 1. TAT (DO) sends T&Cs to Secretary of u3as in batches as provided by I&E
- 2. Secretary of u3a authorises T&Cs on behalf of his/her u3a via NetSuite using unique u3a number and logon
- 3. DO (or authorised TAT person) takes u3a name, date of authorisation, and unique number and adds that information to Beacon
- 4. I&E check daily to identify new authorisations
  - Note that before next step I&E and Pam need to agree Zoom dates/times but also liaise with Graham on how much capacity is forecast
- 5. New authorisation triggers I&E to invite that u3a Web Manager (and assistant) to book onto the Zoom Intro via Eventbrite
- 6. Web Manager (and assistant where applicable) book one of the available Zoom dates
  - Note that there needs to be a step here where I&E keep an eye on bookings to confirm to Pam & Assistant for that day that it's going to go firm but

also if a date needs to be cancelled due

poor take up

- 7. Eventbrite sends event date reminders to Web Managers one week and 2 hours before the Zoom Intro
- 8. Pam & I&E Assistant run the Zoom Intro session
- 9. I&E log attendees, mark on Beacon, and send out training workbook via email
- 10. Web Manager advises I&E when they complete Part 1 of the workbook (learning SiteWorks) and flag that Migrator assistance is required for Part 2 site planning)

Graham's Migration process picks up at this point (<u>PDF on</u> <u>the website</u>)
