

SiteWorks: Release Note

Core 1.1.3

31 July 2024

Minor update to the Core plugin to (a) resolve a number of issues, and (b) to add a limited number of feature enhancements to aid usability.

Summary for Website Administrators: The 1.1.3 version of the core plugin, resolves a small number of issues, the most significant include:

- Provides a list of forthcoming events, with dates, when the venue page is viewed.
- The feature image in the event listing is now clickable and is associated with a link to the full event information. This will enhance the user experience.
- Support for the use of excerpts in both group and venue posts has been added.
- Resolving an issue when the *u3a Group List* block is used on the home page.
- An auto-scrolling option has been added to the group sort list function

In addition a number of minor bugs have been resolved.

New Features, Enhancements or Bug Fixes.

Plugin	Summary of Reason
Core	# 1043. Bug fix: To ensure the Venue page shows a range of events with associated dates. <i>SiteWorks</i> will now show event dates for events listed in ascending date order on the venue page. A user with administrator rights will continue to see both past and future events. Other users or visitors will only see future events.
Core	# 1045. Bug fix: Currently u3a blocks do not implement support for additional CSS classes, the fix will ensure the blocks will respect additional CSS rules.
Core	# 1053. Bug fix: Issue where posts are not being displayed in the dashboard when filtering by group and sorting by date has been resolved.
Core	# 1054. Minor Feature Enhancement: The enhancement allows the featured image in event list grid layout to be a clickable link to the event.
Core	# 1055. Bug fix: No support for Excerpts when defining Group and Venue custom post types. Support has been added.
Core	# 1062. Bug fix: Issue where incorrect result being displayed when using the <i>u3a group list</i> block on the homepage with the Filtered display option and then selecting a day has been resolved.
Core	# 1063. Minor Feature Enhancement; Add option to enable/disable auto-scrolling to group list sort buttons. An option has been provided to disable auto scrolling is now provided.
Core	# 1065. Bug fix. To resolve the issue where u3a custom post types are shown as "Scheduled" even when they are "Published", in Quick Edit.

Known Defects or Limitations

LiteSpeed Cache: This is an ongoing issue, currently the plugin should not be activated. Detailed in OpenProject #972, Change Board Minute 11.
