# SiteWorks: How to copy or move blocks to another page

Screenshots 1a and 1b show two blocks on Block Page 1. Click on the three dots next to the Setting icon a menu opens see Screenshot 2.
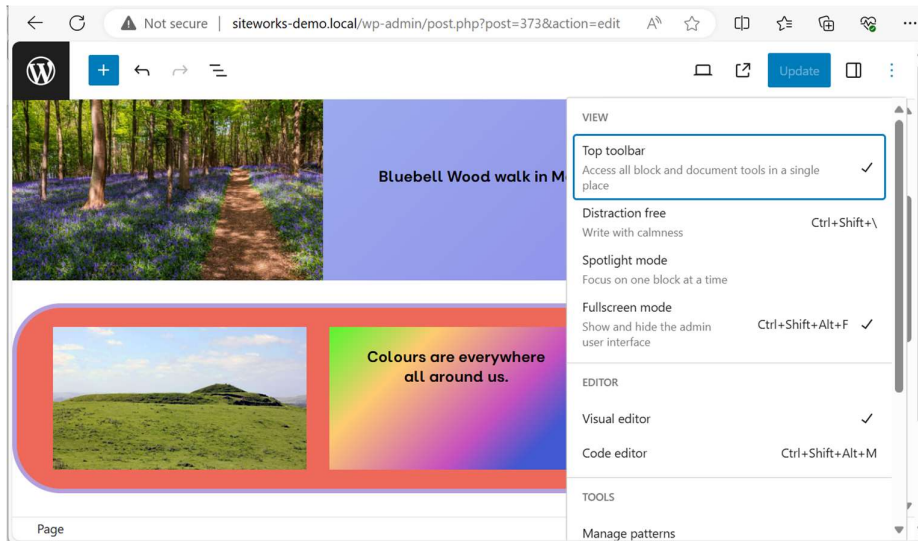

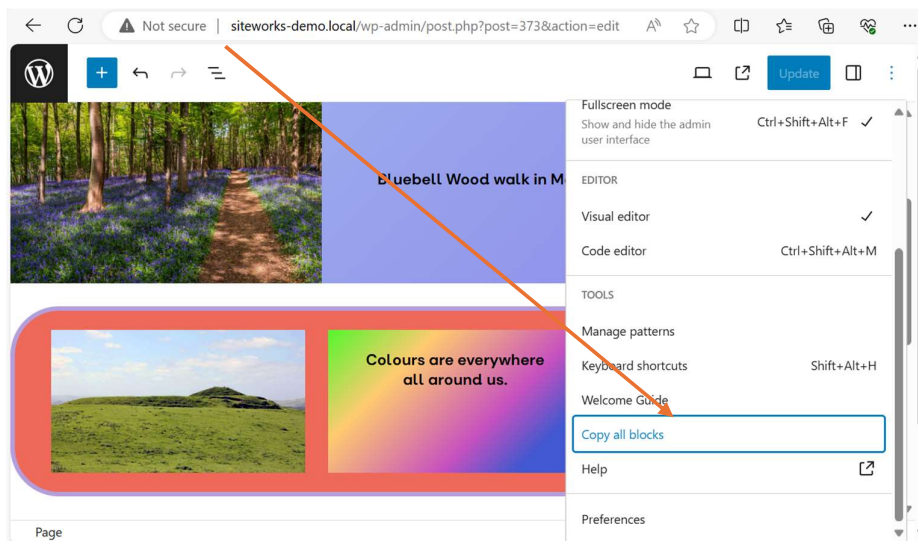

Screenshot 1a

Screenshot 1b

Scroll down the menu that opens to Copy all blocks shown in Screenshot 2b and click on it, all the blocks on the page will be copied to the clipboard.

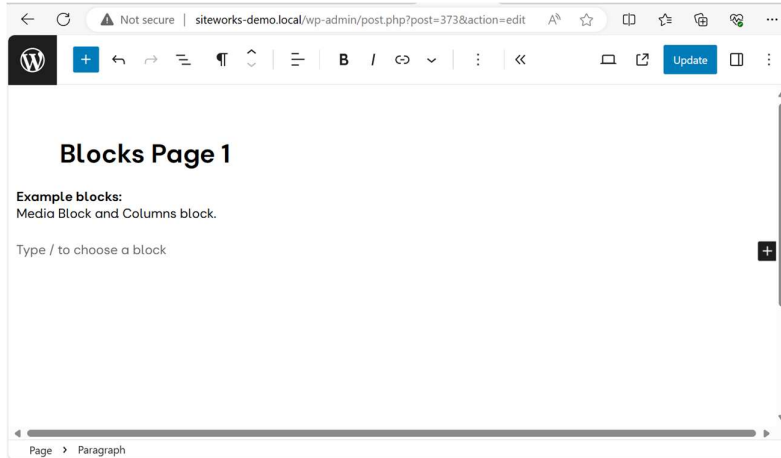

Screenshot 2a

Next, open the page where you want to use the blocks.
In **Screenshot 3** I have opened **Blocks Page 2** which is where I want to use the copied blocks.

Screenshot 3a

In Screenshot 3a, I clicked where it says **Type / to choose a block** and use **ctrl v** to paste the copied block onto the page. Screenshot 3b and 3c.
