

SiteWorks: How to - Can you set up a Contact on a Button?

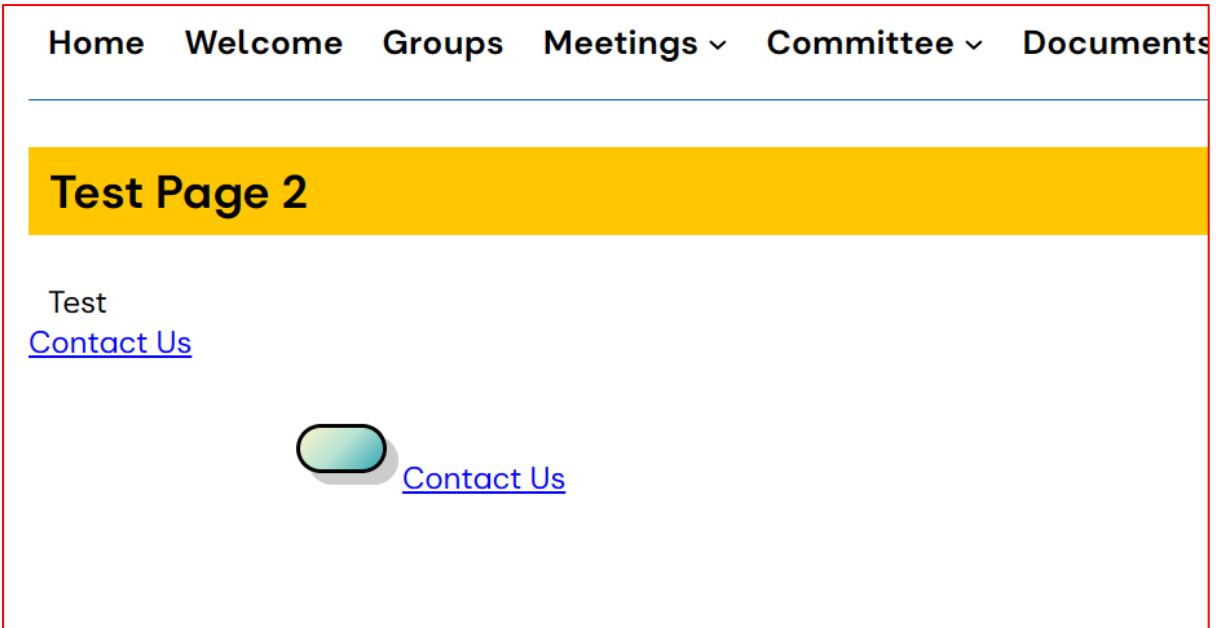

Screenshot 1

When you try you add the contact Shortcode to a button as shown here.

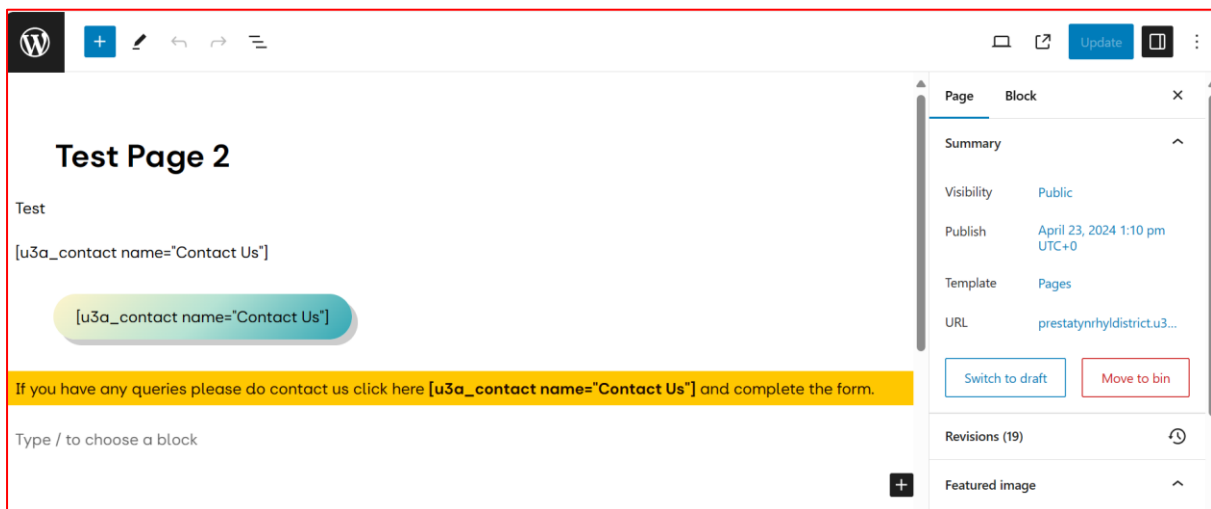

Screenshot 2

When viewed in preview or live, The Shortcode has jumped of the

Screenshot 3

A possible workaround I have used, is to create a paragraph block and insert the contact Shortcode in there. You can add additional text, adjust the text size, colour etc. as you see here

Screenshot 4

This is what it looks like in preview/live view.
