

SiteWorks: Release Note

SiteWorks Core 2.0.0, Import/Export 2.0.2 and Contact Form 1.2.2

19 January 2026

Updated 15 February 2026

Summary for Website Administrators: The updated Core plugin allows *Group* or *Event* lists to show those that belong to more than a single category. It should be noted that this change also impacts on the ImportExport plugin, which the new version resolves. The Contact Form now provides the recipient information regarding the originating page, as well as introducing more protection against web crawlers.

NOTE: The update to the Contact Form will be release week ending 22 February 2026. The updates to the Core and Import/Export will be released in the week ending 1 March 2026.

Release Consists of the Following Plugins

New Features, Enhancements or Bug Fixes.

Plugin	Summary of Reason
Core	<ul style="list-style-type: none"> • OpenProject #1156: When using the <i>Events</i> and <i>Groups</i> list block it is now possible for the users to select more than one category. • OpenProject #1168: Resolved issue with & on group categories.
ImportExport	<ul style="list-style-type: none"> • Due to OpenProject 1156, this plugin has been modified so that multiple groups require a vertical bar separator in the string, i.e. "Outing Social West Region". • OpenProject #1171: Resolved issues uncovered during the testing of #1163.
Contact Form	<ul style="list-style-type: none"> • OpenProject #1166: Modification will deter crawlers from indexing the contact form pages. • OpenProject #1169: The opening line of the email generated by the contact form now appends the page source of the contact which may help recipients identify the nature of the enquiry.

Known Defects or Limitations

Version 2.0.2 of the ImportExport plugin should only be used in conjunction with version 2.0.0 of the Core plugin.

Release Dated: 25 February 2026
